

THE DALAI LAMA

MESSAGE

I am happy to learn that the Initiative Oberland which was founded in 1998 has been engaged in supporting the poorer sections of Tibetans in our Tibetan communities both in India and Nepal. They are especially active in Mundgod Tibetan Settlement, located in the Indian state of Karnataka. Over the years, besides helping to sponsor school-going students and senior citizens, they have also helped to construct houses and improve existing infrastructures.

I want to commend the wonderful work the Initiative Oberland is doing and wish it continued success.
